

National Mission for Clean Ganga
Format for submission of Monthly Progress Report in the NGT Matter OA No. 673 of 2018 (in compliance to NGT order dated 24.09.2020) For the State of Karnataka

Name of the River	Arkavathi River
Polluted river stretch	Tippagondanahalli reservoir to Kanakapura Town
Priority	III
Status as on	July-2025

Overall status of the State:

Particulars		CMC Ramanagara	CMC Kanakapura	Total
I.	Total Population: Urban Population & Rural Population separately	95167	54014	149181
II.	Estimated Sewage Generation (MLD):	10.0	4.4	14.4

III. Details of Sewage Treatment Plant:

Particulars	CMC Ramanagara	CMC Kanakapura	Total
Existing no. of STPs and Treatment Capacity (in MLD):	No. of STPs- 1 Treatment Capacity- 7.5 MLD	No. of STPs- 1 Treatment Capacity-6.29 MLD	No. of STPs- 2 Treatment Capacity- 13.79 MLD
Capacity Utilization of existing STPs:	6.0	3.8	9.8
MLD of sewage being treated through Alternate technology:	4.0(Through Septic tank & Soak Pit)	0.6(Through Septic tank & Soak Pit)	4.6(Through Septic tank & Soak Pit)
Gap in Treatment Capacity in MLD:	4.0	0.6	4.6
No. of Operational STPs:	1	1	2
No. of Complying STPs:	0	0	0
No. of Non-complying STPs:	1*	1*	2

a. Details of each existing STP in the State

Name of the Local Body	Location	Existing STP Capacity	Capacity Being Utilized	Operational Status of STP	Compliance Status of STP
CMC Ramanagara	12°43'24.94"N 77°16'59.69"E	7.5 MLD	6.0 MLD	Operational	Non-complying
CMC Kanakapura	12°32'26.83"N 77°25'4.99"E	6.29 MLD	3.8 MLD	Operational	Non-complying
Total		13.79 MLD	9.8 MLD		

b. Details of under construction STPs in the State

Name of the	Location	Capacity of	Physical	Status of I&D or	Completion
--------------------	-----------------	--------------------	-----------------	-----------------------------	-------------------

Local Body		the plant in MLD	Progress in %	House sewer connections	Timeline
CMC Ramanagara	12°43'24.94"N 77°16'59.69"E	Nil	NIL	11 drains carrying sullage effluent is to be connected to wet well before Micro STP. No Work Progress	31.12.2021 DPR has been prepared and submitted to Govt. by the KUWS & DB for the amount of Rs.220.17 Crores for connecting missing links, wet well conditioning and up gradation of STP.
CMC Kanakapura	12°32'26.83"N 77°25'4.99"E	Nil	NIL	05 drains carrying sullage effluent is to be connected to STPs. The CMC Kanakapura have applied for consent for expansion for the up gradation of STP of capacity 6.2MLD to 8.29 MLD with NEBR Technology with anaerobic decomposition with phyto bio remediation and same was forwarded to the Board Office for onward processing.	31.12.2021 DPR has been prepared and submitted to Govt by the KUWS&DB for the amount of Rs.30.0 Crores for connecting missing links and up gradation of STP by retro fitting using Bio-remediation and Special Aeration system.
Total					

c. Details of proposed STPs in the State

Name of the Local Body	Location	Capacity of the STP proposed in MLD	Status of Project (at DPR Stage/ Under Tendering/ Work to be Awarded)	Likely Date of Completion
CMC Ramanagara	NA	NIL	NIL	NIL
CMC Kanakapura	NA	NIL	NIL	NIL
Total				

IV. Details of Industrial Pollution:

Particulars	CMC Ramanagara	CMC Kanakapura	Arkavathi Polluted River stretch		Total
			Arkavathi River stretch	V Valley catchment area	
No. of industries in the State:	0	0	2 industries (both Red category)	191 industries (Red-31, Orange-60, Green-97, White-03)	191

No. of water polluting industries in the State:	0	0	2 industries (both Red category)	191 industries (Red-31, Orange-60, Green-97, White-03)	191
Quantity of effluent generated from the industries in MLD:	0	0	0.6027 (From 2 industries namely M/s Senapathy Whiteley Limited & Lakshmanan Isola Limited, Acchalu Village, Ramanagar Taluk, both Red categories) in operation. - The sewage of 0.0245 MLD is being disposed to individual septic tank and soak pits. - The trade effluent of about 0.578 MLD is being treated and completely recycled. - Both the industries are complying to consent conditions. - There is no discharge of any type of effluent from these two industries to Arkavathi river. - Barring little sewage from unsewered area of TMC- Bidadi, CMC- Ramanagar and CMC-Kanakapura Town. - River Arkavathi is polluted mainly because of discharge of untreated effluents and sewage from urban areas upstream of Thippagondana Halli Reservoir of	Total generation-8.008MLD (Sewage generation-3.309MLD, of which 0.1716MLD of sewage is treated in Septic tank & Soak pit, 3.137MLD of sewage is treated in 30 numbers of STPs and 1.079MLD of treated sewage is completely recycled and 2.058MLD is discharged to on land for gardening. Trade effluent-4.699MLD, About 0.0186 MLD of effluent from 17 industries is being sent to Common ETPs for treatment and disposal of which. About 4.680MLD of trade effluent is treated in 33 numbers of ETPs (including combined ETPs) and 3.321MLD of treated effluent is completely recycled and 1.358MLD is discharged to on land for gardening. There are no common ETPs in the Arkavathi catchment area.	8.6107

			Bangalore Urban District and the untreated effluents and sewage discharged to Vrishabhavathi Valley which originates from Bangalore Urban/BBMP area.		
--	--	--	--	--	--

****River Arkavathi is polluted mainly because of discharge of untreated effluents and sewage from urban areas upstream of Thippagondana Halli Reservoir of Bangalore Urban District and the untreated effluents and sewage discharged to Vrishabhavathi Valley which originates from Bangalore Urban/BBMP area.**

Quantity of Hazardous Sludge generated from the Industries in TPD:	0	0	3.25 MTPA	2683.402 MTPA	2683.402
Number of industrial units having ETPs:	0	0	2	31	33
Number of industrial units connected to CETP:	0	0	0	14	14
Number and total capacity of ETPs (details of existing/ under construction / proposed)	0	0	No-2 & Capacity-	31	33
Compliance status of the ETPs:	0	0	Complied	Complied	0
Number and total capacity of CETPs (details of existing/ under construction / proposed)	0	0	0	0	0

d. Status of compliance and operation of the CETPs

Town	No. of industries	Industrial discharge	Status of ETPs	Status of CETPs (existing, under construction & proposed)

Treatment Capacity of all TSDFs	NA	NA	
Avg. Quantity of Hazardous waste reaching the TSDFs and Treated	NA	NA	
Details of on-going or proposed TSDF	NA	NA	

VIII. Plastic Waste Management:

Particulars	CMC	CMC	Total
-------------	-----	-----	-------

	Ramanagara	Kanakapura	
Total Plastic Waste generation:	2.5TPD	1.28 TPD	3.78TPD
Treatment/ Measures adopted for reduction or management of plastic waste:	NA	NA	NA

Particulars	CMC Ramanagara	CMC Kanakapura	Total
IX. Details of Alternate Treatment Technology being adopted by the State/UT			
X. Identification of polluting sources including drains contributing to river pollution and action as per NGT order on insitu treatment:	11Drains identified and monitored periodically	5 Drains identified and monitored periodically	16 Drains identified and monitored periodically
XI. Details of Nodal Officer appointed by Chief Secretary in the State/UT:	-		
XII. Details of meetings carried under the Chairmanship Chief of Secretary in the State/UT:	NA		
XIII. Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river;	Annexure-1		
XIV. Ground water regulation:	As per the details submitted by Sr. Geologist, District Ground Water Authority, Ramanagara District for the month of August 2020, as per the circular KGA/NOC/2019-20 dated 29-05-2019 with reference to Karnataka Act 2011 U/s 17 (K), so as to fulfill the objectives of the Act, in notified taluks and non notified taluks for NOC for the purpose of industrial, commercial, entertainment, infrastructure, mining and others is made compulsory. This subject was discussed in District Ground Water Authority meeting. In this regard, as per the directions, a notice has been issued to obtain NOC for extracting groundwater from Karnataka Ground Water Authority / District Ground Water Authority. <u>Status of Ground Water Resource Assessment in Annexure-2</u>		
XV. Good irrigation practices being adopted by the State:	The Dept. of Agriculture and Horticulture have submitted action plan for implementation of following measures. - Farmers are made aware to use water optimally. I. By adopting Micro irrigation system(Sprinkler And Drip) in agricultural crops .		
XVI. Rain Water Harvesting:	As per the details submitted by Sr. Geologist, District Ground Water Authority, Ramanagara for the month of August 2020, to improve the ground water situation rain water harvesting structure and some of the other artificial recharge structures are recommended to be constructed in their premises while giving the permission to extract ground water from the authority.		
XVII. Demarcation of Floodplain and removal of illegal	The tahasildars of the concerned taluk have furnished replies that they are in the process of obtaining the details on encroachment of lands of flood plain and upon receipt of the same they would initiate further		

encroachments:	needful action
XVIII. Maintaining minimum e-flow of river:	The Cauvery Neeravari Nigam Ltd., is requested to submit the action plan as per MoEF & CC norms during monsoon seasons and same is not submitted
XIX. Plantation activities along the rivers:	The Forest Department has submitted action plan for plantation of saplings on the banks of polluted river stretch of Arkavathi which specifies the plantation of saplings and creation of eco park etc for that they have ear marked Rs.13.49 crores. This will be completed by them within time frame of March 2024 , their letter reads.
XX. Development of biodiversity park:	
XXI. Reuse of Treated Water:	Treated water is being utilized for onland for Gardening/ Irrigation/Recycled for process/Toilet Flushing
XXII. Model River being adopted by the State & Action Proposed for achieving the bathing quality standards:	NA
XXIII. Status of Preparation of Action Plan by the 13 Coastal States:	NA
XXIV. Regulation of Mining Activities in the State/UT:	Nil
XXV. Action against identified polluters, law violators and officers responsible for failure for vigorous monitoring	Nil
XXVI. Overall progress of the month: Please provide overall progress achieved in terms of all the above points compared to previous month.	

Annexure-1

XIII Status of Water Quality Assessment of polluted rivers in Annexure-1

Sl. No.	Details of Water Quality Monitoring locations as per NWMP	Year	DO(mg/l)	BOD(mg/l)	Fecal Coliform (MPN/100 ml)	Total Coliform (MPN/100 ml)
1	Thippagondanahalli reservoir	March-2024	3.4	15.0	330	790

National Mission for Clean Ganga

Format for submission of Monthly Progress Report in the NGT Matter OA

No. 673 of 2018 (in compliance to NGT order dated 24.09.2020)

For the State of Karnataka

Name of the River : Bhadra River
Polluted river stretch : 10Km
Priority : IV
Status as on : 31.07.2025

Overall status of the State:

I. Total Population: Urban Population & Rural Population separately:

CMC Bhadravathi Population is 151102. (As on 2011 census)

II. Estimated Sewage Generation (MLD): 20 MLD

III. Details of Sewage Treatment Plant:

- Existing no. of STPs and Treatment Capacity (in MLD):

Existing 3 no of STP's of 5.83 MLD, WSP Technology at Jatpat Nagar, Bhadravathi, 7.2 MLD, WSP Technology at Sy.no.77/P,75/P,75/1P,741/P,64/P,58/1,Seegebagi, CN Road, Bhadravathi, Shivamogga Dist & 1 MLD STP is 1 MLD STP located at Ward no 22, Ujjanipura, Bhadravathi are under operation.

Capacity Utilization of existing STPs: 1.05 MLD

- MLD of sewage being treated through Alternate technology: --
- Gap in Treatment Capacity in MLD:18.95
- No. of Operational STPs: 3
- No. of Complying STPs : 2
- No. of Non-complying STPs: 1

Details of each existing STP in the State

No.	Location	Existing STP Capacity	Capacity Being Utilized	Operational Status of STP	Compliance Status of STP
1	City Municipal Council, Bhadravathi Jatpat Nagara, Bhadravathi, Shivamogga Dist	5.83 MLD	1MLD	Working	Complied
2	City Municipal Council, Bhadravathi Sy.no.77/P,75/P,75/1P,74 1/P,64/P,58/1, Seegebagi, CN Road,Bhadravathi, Shivamogga Dist	7.2MLD	2 MLD	Not Working	Not Complied
3	City Municipal Council, Bhadravathi,Sy.No.13, WardNo.22,Ujjinipura, Bhadravathi, Shivamogga	1MLD	0.05 MLD	Working	Complied

Details of under construction STPs in the State

No.	Location	Capacity of the plant in MLD	Physical Progress in %	Status of I&D or House sewer connections	Completion Timeline
-	-	-	-	-	-

Details of proposed STPs in the State

No.	Location	Capacity of the STP proposed in MLD	Status of Project (at DPR Stage/ Under Tendering/ Work to be Awarded)	Likely Date of Completion
-	-	-	-	-

IV. Details of Industrial Pollution:

- No. of industries in the State:

There are 3 large industries are located in the bank of the Bhadra River.

1. MPM is not working since 7 years.
2. VISL is working intermittently. BF and SMS unit are not working since 6 years.
3. Bhadra Packaids is recycling waste water and comply.

- No. of water polluting industries in the State: 3
- Quantity of effluent generated from the industries in MLD: -
 1. The Mysore Paper Mills Ltd, Bhadravathi, Shivamogga Dist. The effluent generation was 29 MLD. MPM is not working since 6 years.
 2. Steel Authority Of India Ltd, Visveswarayya Iron and Steel Ltd., Bhadravathi, Shivamogga. The effluent generation was 1520 KLD. Blast Furnance and SMS units are not working. Rerolling Mill and Forging units operating intermittently.
 3. Bhadra Packaids Pvt. Ltd, Bommenahalli, Barandur, Badravahti Tq, Shivamogga Dist. The effluent generation is 340 KLD. Recycled back into the process & in washing section after treating in ETP.

- Quantity of Hazardous Sludge generated from the Industries in TPD: -
- Number of industrial units having ETPs: 3
- Number of industrial units connected to CETP: Nil
- Number and total capacity of ETPs (details of existing/ under construction / proposed) : 87400 KLD
- Compliance status of the ETPs: Complied
- Number and total capacity of CETPs (details of existing/ under construction / proposed) : --

Not Applicable (Shivamogga Dist is not having any CETP.

Status of compliance and operation of the CETPs

Town	No. of industries	Industrial discharge	Status of ETPs	Status of CETPs (existing, under construction & proposed)
	Nil			

V. **Solid Waste Management:**

- Total number of Urban Local Bodies and their Population:
1 - City Municipal Council, Bhadravathi. Population is 151102
Current Municipal Solid Waste Generation is about 53.8 TPD.
- Number, installed capacity and utilization of existing MSW processing facilities in TPD (bifurcated by type of processing eg- Waste to Energy (Tonnage and Power Output), Compost Plants (Windrow, Vermi, decentralized pit composting), biomethanation, MRF etc :
City Municipal Council, Bhadravathi is having MSW sit processing & disposal at Hiriuru Village, Bhadravathi Tq, Shivamogga Dist.
- Action plan to bridge gap between Installed Capacity and Current Utilization of processing facilities (if Gap > 20%) : --
- No. and capacity of C&D waste processing plants in TPD (existing, proposed and under construction) : NIL
- Total no. of wards, no. of wards having door to door collection service, no. of wards practicing segregation at source : The CMC Bhadravathi is Collecting Solid waste from door to door. The CMC has reported that they have carried out segregation in all 35 wards. The wet waste is composted in the existing solid waste disposal site, the dry recyclable waste are segregated and sent to recyclers.
- Details of MSW treatment facilities proposed and under construction (no., capacity, and technology)-**Nil**

- No. and area (in acres) of uncontrolled garbage dumpsites and Sanitary Landfills.: --
- No. and area (in acres) of legacy waste within 1km buffer of both side of the rivers : --
- No. of drains falling into rivers and no. of drains having floating racks/screens installed to prevent solid waste from falling into the rivers:---

Status of ULB wise Management of Solid Waste

ULB	Total MSW generation in TPD	Total MSW being processed in TPD	Existing MSW facilities	Utilization Capacity of the existing MSW facilities	Proposed MSW Facilities & Completion Timeline
1	53.8 TPD	45 TPD	windrow platform, composting, Leachate treatment plant provided	45 TPD	Plant & Machineries installation work is under completed. Not in operation.

VI. Bio-medical Waste Management:

- Total Bio-medical generation : 290Kg/day
- No. of Hospitals and Health Care Facilities : There are 121 No of Health Care facilities in the Local body located on the Bhadra river stretch including 32 No bedded Health Care facility, 88 No Non bedded Health Care facilities and 01 Veterinary Hospital.
- Status of Treatment Facility/ CBMWTF: The Shivamogga Dist is having one CBMWTF at i.e.M/s.Shushrutha Biomedical Waste Management Society®, Plot.No.31/C Machenahalli,Bhadravathi Tq & Shivamogga Dist.
The unit has obtained Consent and Authorization from the Board for the period up to 30.06.2025.

VII. Hazardous Waste Management:

- No. of Industries generating Hazardous waste : 6
- Treatment Capacity of all TSDFs:

Not Applicable (Shivamogga Dist is not having TSDF Site)

- Avg. Quantity of Hazardous waste reaching the TSDFs and Treated: Not Applicable
- Details of on-going or proposed TSDF: Not Applicable

VIII. Plastic Waste Management:

- Total Plastic Waste generation: 1095 TPA
- Treatment/ Measures adopted for reduction or management of plastic waste:

The City Municipal Council, Bhadravathi has prepared By laws for Plastic Waste Management Rule. Plastic raids on Commercial activities are conducted from time to time from City Municipal Council, Bhadravathi and KSPCB.

- IX. Details of Alternate Treatment Technology being adopted by the State/UT --
- X. Identification of polluting sources including drains contributing to river pollution and action as per NGT order on insitu treatment:--This Office inspected the CMC, Bhadravathi and 3 STP on dated 24.08.2023 and sample was collected and submitted to Central lab on dated 25.08.2023.
- XI. Details of Nodal Officer appointed by Chief Secretary in the State/UT:--
- XII. Details of meetings carried under the Chairmanship Chief of Secretary in the State/UT:--
- XIII. Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river; July - 2025 month analysis report enclosed as Annexure-1
- XIV. Good irrigation practices being adopted by the State:
- Adaption of micro irrigation practices such as drip/sprinkler.**
- XV. Rain Water Harvesting:
- Shivamogga Urban Development Authority (SUDA) is insisting Residential Buildings/Commercial Buildings to adopt Rain Water Harvesting in its approval.**
- XVI. Demarcation of Floodplain and removal of illegal encroachments:

Flood plain zone encroachment details are sought from the Revenue Department.

XVII. Maintaining minimum e-flow of river:

Karnataka Water Resources Department is the concerned Department and it is maintaining the flow as per the Norms.

XVIII. Plantation activities along the rivers:

The Deputy Commissioner has informed the Forest Department Officers to take suitable action for plantation in flood plain zone.

XIX. Development of biodiversity park:

The Deputy Commissioner instructed the Irrigation Department Officials to verify the encroachment if any on the river banks and informed to take suitable action on this issue along with the concerned Department.

XX. Reuse of Treated Water: --

XXI. Model River being adopted by the State & Action Proposed for achieving the bathing quality standards: --

XXII. Status of Preparation of Action Plan by the 13 Coastal States: Not Applicable

XXIII. Regulation of Mining Activities in the State/UT:

Mines & Geology Dept is monitoring Sand Mining activity

XXIV. Action against identified polluters, law violators and officers responsible for failure for vigorous monitoring:--

XXV. Overall progress of the month:--

XXVI. Please provide overall progress achieved in terms of all the above points compared to previous month. Regarding the non-compliances and the discharge of raw sewage into the Bhadra River, this Office issued a "Show Cause" notice to CMC, Bhadravathi. A letter was also provided to the Board Office for approval to file a criminal case. In the month of September, all 3 STPs at CMC, Bhadravathi, were

examined. Conducted awareness programmes and Bhadra river bank cleaning work along with CMC, Bhadravathi on October month .

The Meeting was conducted with concerned department with the chairmanship of the DC, Shivamogga on dated 15.11.2023.

The Meeting was conducted with concerned department with the chairmanship of the DC, Shivamogga on dated 11.07.2024.

Format for submission of Monthly Progress Report in the NGT Matter

OA No. 673 of 2018 (in compliance to NGT order dated 24.09.2020)

For the State of Karnataka

Name of the River : BHIMA RIVER
Polluted river stretch : Ghanagapur to Yadgir - 160km
Priority : V
Status as on : 05.08.2025

Overall status of the State:

I. Total Population: Urban Population & Rural Population separately : **36,400**

II. Estimated Sewage Generation (MLD): **3.68MLD**

III. Details of Sewage Treatment Plant:

- Existing no. of STPs and Treatment Capacity (in MLD): **Nil**
- Capacity Utilization of existing STPs: **Nil**
- MLD of sewage being treated through Alternate technology: **Nil**
- Gap in Treatment Capacity in MLD: **3.68MLD**
- No. of Operational STPs: **Nil**
- No. of Complying STPs: **Nil**
- No. of Non-complying STPs: **Nil**

Details of each existing STP in the State

No.	Location	Existing STP Capacity	Capacity Being Utilized	Operational Status of STP	Compliance Status of STP
-	-	-	-	-	-

Details of under construction STPs in the State

No.	Location	Capacity of the plant in MLD	Physical Progress in %	Status of I&D or House sewer connections	Completion Timeline
1	TMC, Jewargi at Sy. No. 21/A/A(21/4/2)	5.83	Started the civil work	Yet to connect the UGD to the newly proposed STP	01 year

Details of proposed STPs in the State

No.	Location	Capacity of the STP proposed in MLD	Status of Project (at DPR Stage/ Under Tendering/ Work to be Awarded)	Likely Date of Completion
1	Jewargi	5.83	Obtained CFE of the Board for 5.83MLD STP vide CTE-343940 Dtd. 26.06.2024	-

IV. Details of Industrial Pollution:

- No. of industries in the State: **Nil** (There are no industry located in the river stretch)
- No. of water polluting industries in the State: **Nil**
- Quantity of effluent generated from the industries in MLD: **Nil**
- Quantity of Hazardous Sludge generated from the Industries in TPD: **Nil**
- Number of industrial units having ETPs: **Nil**
- Number of industrial units connected to CETP: **Nil**
- Number and total capacity of ETPs (details of existing/ under construction / proposed): **Nil**
- Compliance status of the ETPs: **Nil**
- Number and total capacity of CETPs (details of existing/ under construction / proposed) : **Nil**
- Status of compliance and operation of the CETPs

Town	No. of	Industrial	Status of ETPs	Status of CETPs (existing,
------	--------	------------	----------------	----------------------------

	industries	discharge		under construction & proposed)

V. **Solid Waste Management:**

- Total number of Urban Local Bodies and their Population : **Town Municipal Council, Jewargi having population of 25,686**
- Current Municipal Solid Waste Generation: **10MT/day, Dry waste – 4MT/day and Wet waste – 6MT/day.**
- Number, installed capacity and utilization of existing MSW processing facilities in TPD (bifurcated by type of processing eg- Waste to Energy (Tonnage and Power Output), Compost Plants (Windrow, Vermi, decentralized pit composting), bimethanation, MRF etc: **Dry waste from the TMC, Jewargi is sent to Cement industry for co-processing in cement kiln and Wet waste is converted into compost by local body in the designated/authorised solid waste processing site.**
- Action plan to bridge gap between Installed Capacity and Current Utilization of processing facilities (if Gap > 20%): **NIL**
- No. and capacity of C&D waste processing plants in TPD (existing, proposed and under construction): **Proposed**
- Total no. of wards, no. of wards having door to door collection service, no. of wards practicing segregation at source : **23**
- Details of MSW treatment facilities proposed and under construction (no., capacity, and technology) : **Dry waste from the TMC, Jewargi is sent to Cement industry for co-processing in cement kiln.**
- No. and area (in acres) of uncontrolled garbage dumpsites and Sanitary Landfills-**NIL**
- No. and area (in acres) of legacy waste within 1km buffer of both side of the rivers-**NIL**

- No. of drains falling into rivers and no. of drains having floating racks/screens installed to prevent solid waste from falling into the rivers : **Drains-5**, no. of drains having floating racks/screens - **Nil**

Status of ULB wise Management of Solid Waste

ULB	Total MSW generation in TPD	Total MSW being processed in TPD	Existing MSW facilities	Utilization Capacity of the existing MSW facilities	Proposed MSW Facilities & Completion Timeline
1	10MT/day	10MT/day	1	10MT/day	-

VI. Bio-medical Waste Management:

- Total Bio-medical generation: **32.5 Kg/day**
- No. of Hospitals and Health Care Facilities: **32 Bedded HCFs and 72 Non Bedded HCFs**
- Status of Treatment Facility/ CBMWTF: **The CBWTFs has provided online continuous monitoring system to incinerator for monitoring of emission. CBWTF has already upgraded their incinerator to meet revised emissions standards as per MOEF Notification 2016.**

VII. Hazardous Waste Management:

- Total Hazardous Waste generation: **Nil**
- No. of Industries generating Hazardous waste: **Nil**
- Treatment Capacity of all TSDFs: **Nil**
- Avg. Quantity of Hazardous waste reaching the TSDFs and Treated: **Nil**
- Details of on-going or proposed TSDF: **Nil**

VIII. Plastic Waste Management:

- Total Plastic Waste generation: **1.1TPD**

Treatment/ Measures adopted for reduction or management of plastic waste: **Segregated Plastic waste from the TMC Jewargi is sent to Cement industry for co-processing in cement kiln. Draft Policy and Plan for plastic waste management has been prepared by the ULBD and accordingly plastic waste shall be collected from un-organized sectors and from house hold/commercial sectors. Plastic raids (Sales & Shops) were conducted from time to time by Local Body.**

- IX. Details of Alternate Treatment Technology being adopted by the State/UT : **Nil**
- X. Identification of polluting sources including drains contributing to river pollution and action as per NGT order on insitu treatment: **Identified**
- XI. Details of Nodal Officer appointed by Chief Secretary in the State/UT: ---
- XII. Details of meetings carried under the Chairmanship Chief of Secretary in the State/UT: ----
- XIII. Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river.
- XIV. Ground water regulation: ---
- XV. Good irrigation practices being adopted by the State: ---
- XVI. Rain Water Harvesting: ----
- XVII. Demarcation of Floodplain and removal of illegal encroachments: ----
- XVIII. Maintaining minimum e-flow of river: ----
- XIX. Plantation activities along the rivers: ---
- XX. Development of biodiversity park: ---
- XXI. Reuse of Treated Water: ---
- XXII. Model River being adopted by the State & Action Proposed for achieving the bathing quality standards: ---
- XXIII. Status of Preparation of Action Plan by the 13 Coastal States: **NA**
- XXIV. Regulation of Mining Activities in the State/UT: ---

XXV. Action against identified polluters, law violators and officers responsible for failure for vigorous monitoring: **Nil**

XXVI. Overall progress of the month: ---

Please provide overall progress achieved in terms of all the above points compared to previous month.

National Mission for Clean Cauvery

Format for submission of Monthly Progress Report in the NGT Matter OA No. 673 of 2018 (in compliance to NGT order dated 24.09.2020) For the State of Karnataka

Name of the River	Cauvery
Polluted river stretch	Ranganathittu to Sattegala Bridge
Priority	IV
Status as on	July - 2025

Overall status of the State:

Particulars		TMC Srirangapatna
I.	Total Population: Urban Population & Rural Population separately	25069
II.	Estimated Sewage Generation (MLD):	2.7

III. Details of Sewage Treatment Plant:

Particulars	TMC Srirangapatna
Existing no. of STPs and Treatment Capacity (in MLD):	3.6
Capacity Utilization of existing STPs:	2.7
MLD of sewage being treated through Alternate technology:	Nil
Gap in Treatment Capacity in MLD:	Nil
No. of Operational STPs:	1
No. of Complying STPs:	1
No. of Non-complying STPs:	Nil

Details of each existing STP in the State

Name of the Local Body	Location	Existing STP Capacity	Capacity Being Utilized	Operational Status of STP	Compliance Status of STP
TMC Srirangapatna	Ganjam, Srirangapatna	3.6 MLD	2.7 MLD	Operational	Complied

Details of under construction STPs in the State

Name of the Local Body	Location	Capacity of the plant in MLD	Physical Progress in %	Status of I&D or House sewer connections	Completion Timeline
TMC Srirangapatna	Ganjam, Srirangapatna.	Up gradation of existing 3.6 MLD STP to 5 MLD	Up-gradation of existing 3.6 MLD STP to 5.0 MLD. Work order issued on 09-05-2022	• Sewage Treatment Plant: • TMC Srirangapatna - The KUWS&DB, Mandya Division had sanctioned Rs.	31-12-2023

		with SBR Technology		16.30 Crores to divert the sewage discharged in to river through storm water drain. Connecting household to UGD by 3000 houses. Up gradation of existing 3.6 MLD STP to 5.0 MLD is completed and it is under operation.	
--	--	---------------------	--	---	--

Details of proposed STPs in the State

Name of the Local Body	Location	Capacity of the STP proposed in MLD	Status of Project (at DPR Stage/ Under Tendering/ Work to be Awarded)	Likely Date of Completion
TMC Srirangapatna	Chandagalu Road, Ganjam, Srirangapatna.	Up gradation of existing 3.6 MLD STP to 5.0 MLD.	Sewage Treatment Plant: TMC Srirangapatna - The KUWS&DB, Mandya Division had sanctioned Rs. 16.30 Crores to divert the sewage discharged in to river through storm water drain. Connecting household to UGD by 3000 houses. Up gradation of existing 3.6 MLD STP to 5.0 MLD is completed and it is under operation.	31-12-2023

Particulars	TMC Srirangapatna
Total number of Urban Local Bodies and their Population	25069
Current Municipal Solid Waste Generation	11.17 TPD
Number, installed capacity and utilization of existing MSW processing facilities in TPD (bifurcated by type of processing eg- Waste to Energy (Tonnage and Power Output), Compost Plants (Windrow, Vermi, decentralized pit composting), biomethanation, MRF etc	- Composting Existing – 1.5 Gap – 3.0 TPD - Sanitary landfill Existing–Nil Gap – 2.34 TPD
Action plan to bridge gap between Installed Capacity and Current Utilization of processing facilities (if Gap > 20%)	DPR for Rs. 4.43 Crores is approved to provide compost plant & sanitary land fill site & the same is to be undertaken. At present the solid waste is dumped in the site without any treatment.
No. and capacity of C&D waste processing plants in TPD (existing, proposed and under construction)	Nil
Total no. of wards, no. of wards having door to door collection service, no. of wards practicing segregation at source	- Door to door collection 23/23 Wards. - Segregation practice-19 Wards
Details of MSW treatment facilities proposed and under construction (no., capacity, and technology)	Nil
No. and area (in acres) of uncontrolled garbage dumpsites and Sanitary Landfills	Nil
No. and area (in acres) of legacy waste within 1km buffer of both side of the rivers	Nil

No. of drains falling into rivers and no. of drains having floating racks/screens installed to prevent solid waste from falling into the rivers

Nos. of drains 3
Nos. of drains having floating racks / screen – Nil

IV. Details of Industrial Pollution:

Particulars	TMC Srirangapatna
No. of industries in the State:	6
No. of water polluting industries in the State:	1
Quantity of effluent generated from the industries in MLD:	0.0196
Quantity of Hazardous Sludge generated from the Industries in TPD:	Nil
Number of industrial units having ETPs:	1
Number of industrial units connected to CETP:	Nil
Number and total capacity of ETPs (details of existing/ under construction / proposed) in MLD	No. of ETP-1, Capacity-0.022 Under construction-0, Capacity-0 Proposed-0. Capacity-0
Compliance status of the ETPs:	Complied
Number and total capacity of CETPs (details of existing/ under construction / proposed)	Nil

Status of compliance and operation of the CETPs

Town	No. of industries	Industrial discharge	Status of ETPs	Status of CETPs (existing, under construction & proposed)
TMC Srirangapatna	Nil	Nil	Nil	Nil

V. Solid Waste Management:

Status of ULB wise Management of Solid Waste

Name of the ULB	Total MSW generation in TPD	Total MSW being processed in TPD	Existing MSW facilities	Utilization Capacity of the existing MSW facilities	Proposed MSW Facilities & Completion Timeline
TMC Srirangapatna	11.17	1.5	Pit Composting	1.5	<u>Solid Waste Management Details:</u> DPR for Rs. 4.40 Crores is approved for processing of entire MSW. Presently, the work is assigned to contractor. All civil works are completed at integrated development of SWM site and erection of machinery is under progress.

VI. Bio-medical Waste Management:

Particulars	TMC Srirangapatna
Total Bio-medical generation in Kgs/day	54.45 Kg/day
No. of Hospitals and Health Care Facilities:	Bedded: 3 Non Bedded: 19
Status of Treatment Facility/ CBMWTF:	CBMWTF

VII. Hazardous Waste Management:

Particulars	TMC Srirangapatna
Total Hazardous Waste generation:	Nil
No. of Industries generating Hazardous waste	Nil
Treatment Capacity of all TSDFs	Nil
Avg. Quantity of Hazardous waste reaching the TSDFs and Treated	Nil
Details of on-going or proposed TSDF	Nil

VIII. Plastic Waste Management:**IX.**

Particulars	TMC Srirangapatna
Total Plastic Waste generation:	0.69
Treatment/ Measures adopted for reduction or management of plastic waste:	Nil

Particulars	TMC Srirangapatna
X. Details of Alternate Treatment Technology being adopted by the State/UT	Nil
XI. Identification of polluting sources including drains contributing to river pollution and action as per NGT order on insitu treatment:	3 drain is identified & monitored & the drain is connected to nearby wet well to pump the same to STP.
XII. Details of Nodal Officer appointed by Chief	-

	Secretary in the State/UT:	
XIII.	Details of meetings carried under the Chairmanship Chief of Secretary in the State/UT:	-
XIV.	Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river;	Status of water quality of polluted rivers in Annexure-1.
XV.	Ground water regulation:	The ground water resources assessment is carried out on Taluka wise (Administrative Units) The State Govt. has taken up various Recharge/Water Conservation Schemes like for augmentation of ground water resources. In respect of semi critical area action plan will be executed with the District Administration to restore the Ground Water Table.
XVI.	Good irrigation practices being adopted by the State:	The Dept. of Agriculture has submitted action plan for implementation of following measures: I. General Government Practice of Irrigation is maintained. II. Farmers are made aware to use water optimally.
XVII.	Rain Water Harvesting:	- Rain water harvesting system is completed at TMC office building, Dr. B.R. Ambidkar Bhavan, near welsely bridge, Gandhinagar JSRY Community Hall at Ranganathnagar & water filter house at Ganjam Shishu Vihara at K.G. Road, Ganjam will be completed 15th finance tide grant. - As per the details submitted by Sr. Geologist, District Ground Water Authority, to improve the ground water situation rain water harvesting structure and some of the other artificial recharge structures are recommended to be constructed in their premises while giving the permission to extract ground water from the authority.
XVIII.	Demarcation of Floodplain and removal of illegal encroachments:	--
XIX.	Maintaining minimum e-flow of river:	The Cauvery Neeravari Nigam Ltd., is requested to submit the action plan as per MoEF & CC norms during monsoon seasons and same is not submitted
XX.	Plantation activities along the rivers:	Forest Department is requesting to submit the action plan for plantation of saplings on the bank of polluted river stretch of Cauvery the same is not yet submitted.
XXI.	Development of biodiversity park:	-
XXII.	Reuse of Treated Water:	The treated water from the STP is being partially disposed to onland for irrigation.
XXIII.	Model River being adopted by the State & Action Proposed for achieving the bathing quality standards:	-

XXIV. Status of Preparation of Action Plan by the 13 Coastal States:	-
XXV. Regulation of Mining Activities in the State/UT:	-
XXVI. Action against identified polluters, law violators and officers responsible for failure for vigorous monitoring	-
XXVII. Overall progress of the month: Please provide overall progress achieved in terms of all the above points compared to previous month.	<u>Sewage Treatment Plant:</u> TMC Srirangatapna - The KUWS&DB, Mandya Division had sanctioned Rs. 16.30 Crores to divert the sewage discharged in to river through storm water drain. Connecting household to UGD by 3000 houses. Up gradation of existing 3.6 MLD STP to 5.0 MLD is completed and it is under operation. <u>Solid Waste Management Details:</u> DPR for Rs. 4.40 Crores is approved for processing of entire MSW. Presently, the work is assigned to contractor. All civil works are completed at integrated development of SWM site and erection of machinery is under progress.

Annexure-1

XIII Status of Water Quality Assessment of polluted rivers in Annexure-1

©	Details of Water Quality Monitoring locations as per NWMP	Month	DO (mg/l)	BOD (mg/l)	Fecal Coliform (MPN/100 ml)	Total coliform (MPN/100 ml)
1	D/S of river Cauvery in Ranganathittu Bird sanctuary, SR Patna Taluk, Mandya District	July-2025	7.1	1.5	70	840
2	D/s of left bank of river Cauvery in Mandya Water Supply Intake Point near SR Patna Taluk, Mandya District	July-2025	6.8	1.8	92	1100
3	D/s of right bank of river Cauvery in Srirangapatna Water Supply Intake Point near Wellesly Bridge TMC SR Patna, Mandya District	July-2025	6.9	2.0	70	940
4	D/S of river Cauvery in Mysore-Bangalore Road Bridge of TMC Srirangapatna, Mandya District	July-2025	6.9	2.0	93	1100

ANNEXURE-2

XIV Status of Ground Water Resource Assessment in Annexure-2

District	Taluka	Net Annual Ground Water Availability (HAM)	Total Ground Water Draft (HAM)	Gap between availability and Draft (HAM)	Stage of Ground Water Development (%)*	Category
Mandya	Srirangapatna	6769.77	2960.12	3809.65	44%	*Safe (≤ 70)
Note:- The ground water resources assessment is carried out on Taluk wise (Administrative Units) The State Govt. has taken up various Recharge/Water Conservation Schemes like for augmentation of ground water resources.						

National Mission for Clean Ganga

Format for submission of Monthly Progress Report in the NGT Matter OA No. 673 of 2018 (in compliance to NGT order dated 24.09.2020) For the State of Karnataka

Name of the River	Cauvery
Polluted river stretch	Mullur to sattegalala Bridge
Priority	IV
Status as on	31 st July 2025.

Overall status of the State:

Particulars	GP Mullur	GP Harale (Dasanapura & Harle Village)	CMC Kollegala	GP Satthehalala (Yedkuri Village)	Total
I. Total Population: Urban Population & Rural Population separately	5671	3264	57149	428	66,512
II. Estimated Sewage Generation (MLD):	0.24	0.14	6.19	0.018	6.588

III. Details of Sewage Treatment Plant:

Particulars	GP Mullur	GP Harale (Dasanapura & Harle Village)	CMC Kollegala	GP Satthehalala (Yedkuri Village)	Total capacity in MLD
Existing no. of STPs and Treatment Capacity (in MLD):	Nil	Nil	9	Nil	9
Capacity Utilization of existing STPs:	Nil	Nil	6.19	Nil	6.19
MLD of sewage being treated through Alternate technology:	Nil	Nil	Nil	Nil	Nil
Gap in Treatment Capacity in MLD:	Nil	Nil	Nil	Nil	Nil
No. of Operational STPs:	Nil	Nil	1	Nil	1
No. of Complying STPs:	Nil	Nil	1	Nil	1
No. of Non-complying STPs:	Nil	Nil	Nil	Nil	Nil

- Note:** GP Mullur, GP Harale (Dasanapura & Harle Village) & GP Satthehalala (Yedkuri Village) does not have STP and the Sewage effluent from the individual houses are being disposed off in to Septic tank and soak pits.

Details of each existing STP in the State

Name of the Local Body	Location	Existing STP Capacity	Capacity Being Utilized	Operational Status of STP	Compliance Status of STP
CMC, Kollegala	Sy No.930, 934, 946 & 935, Mullur Road, Kollegal Taluk	9.0 MLD	6.19 MLD	6.19 MLD	STP is under Operation the missing UGD links in the networks have been identified. The District level" Special Environmental Task Force" meeting was held on 27-05-2024 under the Chairmanship of the Hon'ble District Commissioner, Chamarajanagar District. In the meeting Hon'ble District Commissioner has directed the concerned departments to take the action to prevent sewage waste water joining into Cauvery River and informed to submit the report.

Details of under construction STPs in the State

Name of the Local Body	Location	Capacity of the plant in MLD	Physical Progress in %	Status of I&D or House sewer connections	Completion Timeline
GP, Mulluru	-	-	-	Proposed to provide Common Septic tank and soak pit by diverting the sullage joining to river. No Work is in Progress.	31-03-2021
GP Harale (Dasanapura & Harle Village)	-	-	-	Proposed to provide Common Septic tank and soak pit by diverting the sullage joining to river. No Work is in Progress.	31-03-2021
CMC, Kollegala	Sy No.930, 934, 946	9 MLD	80% is completed. since Out of the	Laying UGD network is in progress & after	31-03-2021

	& 935, Mullur Road, Kollegal Taluk		planned 7 wet wells serving each of the 7 collection networks zones, the construction of 03 wet wells one each for Uppara mole, shankanapura and Hosanagalli is yet to be taken up by the implementing agency i.e., KUWS&DB. The construction of Shankanapura collection zones wet well is delayed has the land issue of the wet well site as enter into illegal litigation in the Karnataka High Court. As per the MPR for the March 2021 received from CMC, Kollegal: The missing Links in the sewer network are being attended to and the proposed wet wells in separate areas away from the city like Hosaanagalli, Shankanapura ,budithittu and Bendarahalli have been dropped and new technology based decentralized local treatment units have been proposed for the said areas which will take some time for implementation and commissioning. Stipulating the time limit as August- 2021. No Work is in Progress.	completion of the same sewage discharge in to storm water drain is avoided. Work is in progress. Presently, 9 MLD STP is under operation & not receiving full quantum of sewage because of the missing links. UGD works is completed but the house to sewer network connection is partially completed. As per the MPR submitted by the CMC Kollegala the connection of entire sewer network and other sources of generation of sewage have been connected to the STP barring the isolated areas of Hosa Anagalli, Shankanapura, Upparamole and Bendarahalli and Booditittu. The earlier proposed wet wells have been dropped at Hosa Anagalli, Shankanapura, Upparamole and Bendarahalli and Booditittu and new technology based decentralized local treatment units in the form of mini STP have been proposed for the said area. Hence CMC kollegala has sought time till Aug 2021 for the establishment and commissioning of the proposed mini STP's. No Work is in Progress.	
Yedkuri Village (GP Sathhegala)	-	-	-	Proposed to provide Common Septic tank and soak pit by diverting the sullage joining to river. No Work is in Progress.	31-03-2021

Details of proposed STPs in the State

Name of the Local Body	Location	Capacity of the STP proposed in MLD	Status of Project (at DPR Stage/ Under Tendering/ Work to be Awarded)	Likely Date of Completion
GP, Mulluru	GP, Mulluru	2 drains is identified & monitored. Particulars	GP Mullur	GP Harale (Dasanapura & Harle Village)	CMC Kollegala	GP Satthegala (Yedkuri Village)
Total Hazardous Waste generation:	Nil	Nil	0.5TPA	Nil
No. of Industries generating Hazardous waste	Nil	Nil	01	Nil
Treatment Capacity of all TSDFs	Nil	Nil	Nil	Nil
Avg. Quantity of Hazardous waste reaching the TSDFs and Treated	Nil	Nil	Nil	Nil
Details of on-going or proposed TSDF	Nil	Nil	Nil	Nil

VIII. Plastic Waste Management:

Particulars	GP Mullur	GP Harale (Dasanapura & Harle Village)	CMC Kollegala	GP Satthegala (Yedkuri Village)
Total Plastic Waste generation:	Nil	Nil	10 TPA	Nil
Treatment/ Measures adopted for reduction or management of plastic waste:	Nil	Nil	Nil	Nil

Particulars	GP Mullur	GP Harale (Dasanapura & Harle Village)	CMC Kollegala	GP Sathhegala (Yedkuri Village) Total
IX. Details of Alternate Treatment Technology being adopted by the State/UT	Nil	Nil	Nil	Nil
X. Identification of polluting sources including drains contributing to river pollution and action as per NGT order on insitu treatment:	2 drains is identified & monitored. ZP Chamarajanagar has earmarked an amount of Rs. 3.0 Lakhs for providing Common Sewage collection tank & Common septic tank and soak pit. No physical progress in Field is made upto July-2025	5 drains is identified & monitored. ZP Chamarajanagar has earmarked an amount of Rs. 1,15,000/- for providing Common Sewage collection tank & Common septic tank and soak pit. No physical progress in Field is made upto July-2025	1 drain is identified & monitored. CMC Kollegala is providing UGD network for the entire town & after completion of the same the sewage & sullage entering the said drains is diverted to STP for further treatment & disposal.	1 drain is identified & monitored. ZP Chamarajanagar has earmarked an amount of Rs. 2.0 Lakhs for providing Common Sewage collection tank & Common septic tank and soak pit. No physical progress in Field is made upto July-2025
XI. Details of Nodal Officer appointed by Chief Secretary in the State/UT:	-			
XII. Details of meetings carried under the Chairmanship Chief of Secretary in the State/UT:	-			
XIII. Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river;	<u>Latest water quality of polluted river stretch for the month of July- 2025 is enclosed in Annexure-1</u>			
XIV. Ground water regulation:	CMC Kollegala : As per the details submitted by Sr. Geologist, District Ground Water Authority, Chamarajanagar for the month of 2021, as per the circular KGA/NOC/2019-20 dated 29-05-2019 with reference to Karnataka Act 2011 U/s 17 (K), so as to fulfill the objectives of the Act, in notified taluks and non notified taluks for NOC for the purpose of industrial, commercial, entertainment, infrastructure, mining and others is made compulsory. This subject was discussed in District Ground Water Authority meeting. In this regard, as per the directions, notices has been issued to obtain NOC for extracting groundwater from Karnataka Ground Water Authority / District Ground Water Authority. <u>Status of Ground Water Resource Assessment in Annexure-2</u>			
XV. Good irrigation practices being adopted by the State:	The Dept. of Agriculture has submitted action plan for implementation of following measures: I. General Government Practice of Irrigation is maintained.			

	II. Farmers are made aware to use water optimally. As per the details submitted by KaveriNeeravariNigama for the month of August 2020, Canal System are partially lined, so as to minimize seepage losses. In view of this a DPR proposed from the irrigation department of Kollegala taluk for the work related to Distributaries (D-56 to D-62) under Kabini Right Bank Canal (KRBC). Total cost of Rs.20 crores for modernization of canals is yet to be sanctioned.
XVI. Rain Water Harvesting:	As per the details submitted by Sr. Geologist, District Ground Water Authority, Chamarajanagar for the month of March 2021, to improve the ground water situation rain water harvesting structure and some of the other artificial recharge structures are recommended to be constructed in their premises while giving the permission to extract ground water from the authority.
XVII. Demarcation of Floodplain and removal of illegal encroachments:	--
XVIII. Maintaining minimum e-flow of river:	--
XIX. Plantation activities along the rivers:	-
XX. Development of biodiversity park:	
XXI. Reuse of Treated Water:	-
XXII. Model River being adopted by the State & Action Proposed for achieving the bathing quality standards:	-
XXIII. Status of Preparation of Action Plan by the 13 Coastal States:	-
XXIV. Regulation of Mining Activities in the State/UT:	-
XXV. Action against identified polluters, law violators and officers responsible for failure for vigorous monitoring	-
XXVI. Overall progress of the month: Please provide overall progress achieved in terms of all the above	CMC Kollegala – Presently, 9 MLD STP is under operation & not receiving full quantum of sewage because of the missing links. UGD works is completed but the house to sewer network connection is partially completed. As per the MPR submitted by the CMC Kollegala the connection of entire sewer network and other sources of generation of sewage have been connected to the STP barring the isolated areas of Hosa Anagalli, Shankanapura, Upparamole and Bendarahalli and Booditittu. The earlier proposed wet wells have been dropped at Hosa Anagalli, Shankanapura, Upparamole and Bendarahalli and Booditittu and new technology based

points compared to previous month.	decentralized local treatment units in the form of mini STP have been proposed for the said area. Hence CMC kollegala has sought time till Aug 2021 for the establishment and commissioning of the proposed mini STP's. As per the MPR submitted by the CMC Kollegala, Construction of compound wall, processing Shed, windrow platform, internal roads, Sanitary Land Fill(SLF), drain, watch man shed is completed. Electrification, drilling of Borewell, installation of machineries, are under tender process and sought Completion Timeline on March 2021. As per the letter from Executive Officer, Taluk Panchayath, Kollegala dated 3-1-2022, stated within March 2022 the Septic & Soak pit as per IS 2470 will be constructed. As per recent email received from Executive Officer, Taluk Panchayath, Kollegala dated 07-05-2022, stated within July 2022 the Septic & Soak pit as per IS 2470 will be constructed. The District level" Special Environmental Task Force" meeting was held on 27-05-2025 under the Chairmanship of the Hon'ble District Commissioner, Chamarajanagar District. In the meeting Hon'ble District Commissioner has directed the concerned departments to take the action to prevent sewage waste water joining into Cauvery River and informed to submit the report. Copy of the proceeding is enclosed for your reference. This Office filed the Criminal case against the City Municipal Council, Kollegal for discharged sewage and sullage from the area which is not provided with UGD and outlet of STP and other missing links are discharged to Guppamma canal ultimately joining to River Cauvery. This Office has issued the notice to CMC, Kollegal for discharging of sewage in to Kuppamma canal and recommended the Board Office to call for Personal hearing. The Personal Hearing was held on 21-06-2024 at Board Office, Bengaluru under the Chairmanship of the Chairman, KSPCB, Bengaluru. Copy of the proceeding is enclosed for your reference.
------------------------------------	---

Annexure-1

XIII Status of Water Quality Assessment of polluted rivers in Annexure-1

Sl. No.	Details of Water Quality Monitoring locations as per NWMP	Month	DO (mg/l)	BOD (mg/l)	Fecal Coliform (MPN/100 ml)	Total Coliform (MPN/100 ml)
1	D/S of river Cauvery near Mullur Village, Kollegala Taluk, Chamarajanagar District	July-2025	7.2	1.8	92	1100
2	D/S of Cauvery river near Dasanapura Village, Kollegala Taluk, Chamarajanagar District	July-2025	7.4	1.5	70	940
3	D/S of Cauvery river near Sathegala Bridge, Kollegala Taluk, Chamarajanagar District	July- -2025	7.7	1.0	70	940

ANNEXURE-2

XIV Status of Ground Water Resource Assessment in Annexure-2

District	Taluka	Net Annual Ground Water Availability (HAM)	Total Ground Water Draft (HAM)	Gap between availability and Draft (HAM)	Stage of Ground Water Development (%)*	Category
Mandya	Srirangpatna	6769.77	2960.12	3809.65	44%	*Safe (≤ 70)
Mysuru	T.Narasipura	10244	4978	5266	49	*Safe (≤ 70)
Ch-nagar	Kollegala	142.23 (MCM)	100.42 (MCM)	41.18 (MCM)	71	*Semi Critical

Note: - The ground water resources assessment is carried out on Taluk wise (Administrative Units) The State Govt. has taken up various Recharge/Water Conservation Schemes like for augmentation of ground water resources.

National Mission for Clean Ganga

Format for submission of Monthly Progress Report in the NGT Matter

OA No. 673 of 2018 (in compliance to NGT order dated 24.09.2020)

For the State of Karnataka

Name of the River : KAGINA RIVER
Polluted river stretch : Shahabad to Hongunta -10KM
Priority : IV
Status as on : 05.08.2025

Overall status of the State:

I. Total Population: Urban Population & Rural Population separately : **47,582**

II. Estimated Sewage Generation (MLD): **7.06MLD**

III. Details of Sewage Treatment Plant:

- Existing no. of STPs and Treatment Capacity (in MLD): **Nil**
- Capacity Utilization of existing STPs: **Nil**
- MLD of sewage being treated through Alternate technology: **Nil**
- Gap in Treatment Capacity in MLD: **7.06MLD**
- No. of Operational STPs: **Nil**
- No. of Complying STPs: **Nil**
- No. of Non-complying STPs: **Nil**

Details of each existing STP in the State

No.	Location	Existing STP Capacity	Capacity Being Utilized	Operational Status of STP	Compliance Status of STP
-	-	-	-	-	-

Details of under construction STPs in the State

No.	Location	Capacity of the plant in MLD	Physical Progress in %	Status of I&D or House sewer connections	Completion Timeline
-	-	-	-	-	-

Details of proposed STPs in the State

No.	Location	Capacity of the STP proposed in MLD	Status of Project (at DPR Stage/ Under Tendering/ Work to be Awarded)	Likely Date of Completion
1	Shahabad	13.5	-	-

IV. Details of Industrial Pollution:

- No. of industries in the State: **Nil** (There are no industry located in the river stretch)
- No. of water polluting industries in the State: **Nil**
- Quantity of effluent generated from the industries in MLD: **Nil**
- Quantity of Hazardous Sludge generated from the Industries in TPD: **Nil**
- Number of industrial units having ETPs: **Nil**
- Number of industrial units connected to CETP: **Nil**
- Number and total capacity of ETPs (details of existing/ under construction / proposed): **Nil**
- Compliance status of the ETPs: **Nil**
- Number and total capacity of CETPs (details of existing/ under construction / proposed) : **Nil**
- Status of compliance and operation of the CETPs

Town	No. of industries	Industrial discharge	Status of ETPs	Status of CETPs (existing, under construction & proposed)
-	-	-	-	-

V. **Solid Waste Management:**

- Total number of Urban Local Bodies and their Population : **City Municipal Council Shahabad having population of 47,582**
- Current Municipal Solid Waste Generation: **17.44MT/day, Dry waste – 11MT/day and Wet waste – 5.44MT/day.**
- Number, installed capacity and utilization of existing MSW processing facilities in TPD (bifurcated by type of processing eg- Waste to Energy (Tonnage and Power Output), Compost Plants (Windrow, Vermi, decentralized pit composting), biomethanation, MRF etc: **Dry waste from the CMC Shahabad is sent to Cement industry for co-processing in cement kiln and Wet waste is converted into composted by local body in the designated/authorised solid waste processing site.**
- Action plan to bridge gap between Installed Capacity and Current Utilization of processing facilities (if Gap > 20%): **Nil**
- No. and capacity of C&D waste processing plants in TPD (existing, proposed and under construction): **Proposed**
- Total no. of wards, no. of wards having door to door collection service, no. of wards practicing segregation at source : **27**
- Details of MSW treatment facilities proposed and under construction (no., capacity, and technology) : **Dry waste from the CMC Shahabad is sent to Cement industry for co-processing in cement kiln.**
- No. and area (in acres) of uncontrolled garbage dumpsites and Sanitary Landfills.: **Nil**
- No. and area (in acres) of legacy waste within 1km buffer of both side of the rivers : **Nil**
- No. of drains falling into rivers and no. of drains having floating racks/screens installed to prevent solid waste from falling into the rivers : **1**

Status of ULB wise Management of Solid Waste

ULB	Total MSW generation in TPD	Total MSW being processed in TPD	Existing MSW facilities	Utilization Capacity of the existing MSW facilities	Proposed MSW Facilities & Completion Timeline
1	17.44MT/day	17.44MT/day	1	17.44MT/day	-

VI. Bio-medical Waste Management:

- Total Bio-medical generation: **12 Kg/day**
- No. of Hospitals and Health Care Facilities: **4 Bedded HCFs and 20 Non Bedded HCFs**
- Status of Treatment Facility/ CBMWTF: **The CBWTFs has provided online continuous monitoring system to incinerator for monitoring of emission. CBWTF has already upgraded their incinerator to meet revised emissions standards as per MOEF Notification 2016.**

VII. Hazardous Waste Management:

- Total Hazardous Waste generation: **Nil**
- No. of Industries generating Hazardous waste: **Nil**
- Treatment Capacity of all TSDFs: **Nil**
- Avg. Quantity of Hazardous waste reaching the TSDFs and Treated: **Nil**
- Details of on-going or proposed TSDF: **Nil**

VIII. Plastic Waste Management:

- Total Plastic Waste generation: **2TPD**

Treatment/ Measures adopted for reduction or management of plastic waste:
Segregated Plastic waste from the CMC Shahabad is sent to Cement industry for

co-processing in cement kiln. Draft Policy and Plan for plastic waste management has been prepared by the ULBD and accordingly plastic waste shall be collected from un-organized sectors and from house hold/commercial sectors. Plastic raids (Sales & Shops) were conducted from time to time by Local Body.

- IX. Details of Alternate Treatment Technology being adopted by the State/UT : **Nil**
- X. Identification of polluting sources including drains contributing to river pollution and action as per NGT order on insitu treatment: **Identified**
- XI. Details of Nodal Officer appointed by Chief Secretary in the State/UT: ---
- XII. Details of meetings carried under the Chairmanship Chief of Secretary in the State/UT: ----
- XIII. Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river.
- XIV. Ground water regulation: ---
- XV. Good irrigation practices being adopted by the State: ---
- XVI. Rain Water Harvesting: ----
- XVII. Demarcation of Floodplain and removal of illegal encroachments: ----
- XVIII. Maintaining minimum e-flow of river: ----
- XIX. Plantation activities along the rivers: ---
- XX. Development of biodiversity park: ---
- XXI. Reuse of Treated Water: ---
- XXII. Model River being adopted by the State & Action Proposed for achieving the bathing quality standards: ---
- XXIII. Status of Preparation of Action Plan by the 13 Coastal States: **NA**
- XXIV. Regulation of Mining Activities in the State/UT: ---
- XXV. Action against identified polluters, law violators and officers responsible for failure for vigorous monitoring: **Nil**

XXVI. Overall progress of the month: ---

Please provide overall progress achieved in terms of all the above points compared to previous month.

National Mission for Clean Ganga

- XXV. Action against identified polluters, law violators and officers responsible for
failure for vigorous monitoring : ----
- XXVI. Overall progress of the month: -----

Please provide overall progress achieved in terms of all the above points
compared to previous month.

National Mission for Clean Ganga

Format for submission of Monthly Progress Report in the NGT Matter OA No. 673 of 2018 (in compliance to NGT order dated 24.09.2020)

For the State of Karnataka (Netravathi)

Overall status of the State: KARNATAKA (Dakshina Kannada)		
Name of The River		Netravathi
Polluted River Stretch		Netravathi
Priority		Priority - V
Status as on		July- -2025
Overall status of the State:		
I	Total Population : Urban Population & Rural Population Separately	55,073 (As per 2011 census) <i>(The Population is considered within the polluted river stretch of length 50KM)</i>
	Urban Population	47,901
	Rural Population	7,172
II	Estimated Sewage Generation (MLD):	5.95 MLD
III Details of Sewage Treatment Plant		
Existing no. of STPs and Treatment Capacity (in MLD)		There is no Existing STPs in jurisdiction of Bantwala and one STP of 6 KLD in Belthangady TMC. The Bantwala TMC has taken up construction work of providing UGD and the work is under progress
Capacity Utilization of existing STPs		NA
MLD of sewage being treated through Alternate technology		NA
Gap in Treatment Capacity in MLD: No. of Operational STPs:		Since there are no STPS, there is a need to establish STP of adequate capacity to treat the total quantity of sewage (i.e 5.95 MLD) generated from these local bodies.
No. of Complying STPs:		NA
No. of Non-complying STPs:		NA

Details of each existing STP in the State

No.	Location	Existing STP Capacity	Capacity Being Utilized	Operational Status of STP	Compliance Status of STP
Not Applicable					

Details of under construction STPs in the State

No.	Location	Capacity of the plant in MLD	Physical Progress in %	Status of I&D or House sewer connections	Completion Timeline
NIL					

Details of proposed STPs in the State

No.	Location	Capacity of the STP proposed in MLD	Status of Project (at DPR Stage/ Under Tendering/ Work to be Awarded)	Likely Date of Completion
Nil				

IV Details of Industrial Pollution

No. of industries in the State (D.K District)	There are no waste water generating industries within the purview of local bodies situated on the bank of Netravathi River (on the identified polluted river stretch)
No. of water polluting industries in the State	NA
Quantity of effluent generated from the industries in MLD	NA
Quantity of Hazardous Sludge generated from the Industries in TPD	NA
Number of industrial units having ETPs	NA
Number of industrial units connected to CETP	NA
Number and total capacity of ETPs (details of existing/ under construction / proposed)	NA
Compliance status of the ETPs	NA
Number and total capacity of CETPs (details of existing/ under construction / proposed)	There are no CETP's in the Local bodies situated on the polluted River Stretches.
Status of compliance and operation of the CETPs	NA

Town	No. of industries	Industrial discharge	Status of ETPs	Status of CETPs (existing, under construction & proposed)
Not applicable				

V Solid Waste Management

Total number of Urban Local Bodies and their Population

The total number of Urban Local Bodies on the bank of Netravathi River along with the population are submitted as below;

Sl No	Local Bodies	Population
1	Town Municipal council, Bantwala, Dakshina Kannada District.	40155
2	Town Panchyath, Belthangadi Taluk, Dakshina Kannada District	7746

Current Municipal Solid Waste Generation	13.89 MT/day
Number, installed capacity and utilization of existing MSW processing facilities in TPD (bifurcated by type of processing eg- Waste to Energy (Tonnage and Power	The local bodies are practicing the system of door to door collection of segregated municipal solid waste.

Output), Compost Plants (Windrow, Vermi, decentralized pit composting), Bio-methanation, MRF etc	The dry recyclable waste such as Paper, wood, Glass etc are being segregated and sent to recyclers.
Action plan to bridge gap between Installed Capacity and Current Utilization of processing facilities (if Gap > 20%)	All local bodies have submitted action plan with time line to bridge gap between Installed Capacity and Current Utilization of processing facilities through District environmental plan as per the NGT Order w.r.t O.A.360 of 2018.
No. and capacity of C&D waste processing plants in TPD (existing, proposed and under construction)	There are no C&D waste processing plants.
Total no. of wards, no. of wards having door to door collection service, no. of wards practicing segregation at source	Total No. of wards-38 Door to Door Collection-35 Segregation at Source-23 (As submitted by ULBs in DEP)
Details of MSW treatment facilities proposed and under construction (no., capacity, and technology)	Nil
No. and area (in acres) of uncontrolled garbage dumpsites and Sanitary Landfills	Nil
No. and area (in acres) of legacy waste within 1km buffer of both side of the rivers	Nil
No. of drains falling into rivers and no. of drains having floating racks/screens installed to prevent solid waste from falling into the rivers	7

Status of ULB wise Management of Solid Waste

ULB	Total MSW generation in TPD	Total MSW being processed in TPD	Existing MSW facilities	Utilization Capacity of the existing MSW facilities	Proposed MSW Facilities & Completion Timeline
Bantwala TMC	14	12.2	- Windrows System is adopted for management of wet waste - Management of Material Receiving Facility for dry waste recycling.	100%	There are no Proposed MSW Facilities in this jurisdiction.

VI Bio-medical Waste Management

Total Bio-medical generation:	180 Kg/day
No. of Hospitals and Health Care Facilities	132
Status of Treatment Facility/ CBMWTF	The Bio medical Waste generated from hospitals and HCEs are being handed over to CBMWTF facility

	provided by M/s. Ramky Enviro Tech Pvt. Ltd., Mulki, D.K. and M/s. Ayush Enviro tech Pvt. Ltd., Padubidre Udupi further treatment and disposal
--	--

<u>VII Hazardous Waste Management</u>	
Total Hazardous Waste Generation	Nil
No of Industries Generating Hazardous Waste	Nil
Treatment Capacity of all TSDFS	There are No TSDF facility proposed in the jurisdiction of RO-Mangalore. The Hazardous waste generated in the District is being sent to TSDF, situated at Bangalore for final treatment & disposal. the other facility like incinerators, Co-processors & Recyclers across the state are also being used for treatment & disposal of Hazardous waste generated from the industries.
Average Quantity of Hazardous Waste reaching the TSDFS and treated	
Details of on-going or proposed TSDF	

<u>VIII Plastic Waste Management</u>		
	Total Plastic Waste generation	382 MT/A
	Treatment/ Measures adopted for reduction or management of plastic waste	- The Single use plastic is totally banned in Karnataka as per GoK Notification No: No. FEE/17EPC2012, Bangalore, dated: 11-03-2016. - There are two waste plastic reprocessing industries in the jurisdiction of RO-Mangalore.
IX	Details of Alternate Treatment Technology being adopted by the State/UT	NA
X	Identification of polluting sources including drains contributing to river pollution and action as per NGT order on insitu treatment	- In the ULB limit most of individual houses are have provided ST & SP for treatment of domestic sewage generated from individual houses. - Revised river rejuvenation action plan submitted on 08.05.2020 with directions to all the stakeholder for complying with the direction issued in the District Level Special Surveillance Task Force(DLSETF) - Proposal for providing Underground drainage system in all areas with terminal STP for 100% treatment of waste water. - Untreated sewage entering in to the rivers should be reduced by laying the drainage network & connecting the domestic sewage in to the terminal sewage treatment plant. - To install STP's for treatment of domestic sewage and scientific disposal facilities for solid waste generated from the villages & town located on the

		bank of Netravathi River
XI	Details of Nodal Officer appointed by Chief Secretary in the State/UT	NA
XIII	Details of meetings carried under the Chairmanship Chief of Secretary in the State/UT:	NA
XIII	Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river;	Attached as Annexure
XIV	Ground water regulation	The industry authorities are directed to obtain NOC from State/ District Ground water Authority as applicable.
XV	Good irrigation practices being adopted by the State	NA
XVI	Rain Water Harvesting	During the District Level meeting of DLSESTF a directions were given from District Commissioner to all the Concerned Departments to implement the Comprehensive Rain Water System and submit an action taken report.
XVII	Demarcation of Floodplain and removal of illegal encroachments	Directions have been given to Forest Department and Revenue Department to submit details about flood plain zone and to carry out massive plantation and also to notify the Flood Plain Zone (FPZ).Gazing station at Bantwala through District Environmental Plan (DEP)
XVIII	Maintaining minimum flow of river	During the District Level meeting of DLSESTF a directions was given from District Commissioner to all the Concerned Departments to maintaining minimum flow of river and submit an action taken report.
XIX	Plantation activities along the rivers	During the District Level meeting of DLSESTF a directions was given from District Commissioner to all the Concerned Departments to take up Plantation activities along the rivers and submit an action taken report.
XX	Development of biodiversity park	NA
XXI	Reuse of Treated Water	Treated sewage will be reused once STP put into operation.
XXII	Model River being adopted by the State & Action Proposed for achieving the bathing quality standards	If the State identifies the model river, the Action Proposed for achieving the bathing quality standards the directions will be followed.
XXIII	Status of Preparation of Action	Submitted. Copy of Coastal plan enclosed. Information

	Plan by the 13 Coastal States	furnished in the prescribed format for OA No. 829/2019 vide letter dated: 03.01.2020.
XXIV	Regulation of Mining Activities in the State/UT	Regulated by Department of Mines and Geology.
XXV	Action against identified polluters, law violators and officers responsible for failure for vigorous monitoring	Nil
XXVI	Please provide overall progress achieved in terms of all the above points compared to previous month ➤ Effective implementation of Door to Door collection of solid waste is being done by the ULBs. ➤ The household plastic waste is collected and handed over to Authorized plastic waste recyclers. ➤ TMC Bantwala has started processing their wet waste through windrows composting. ➤ This office has issued notices to all the urban local bodies to identify site for establishing C&D waste processing facility and obtain the Authorization under C&D Waste management Rules, 2016. ➤ The Meeting of District Level Special Task Force (STF) was held on 29.12.2021 under the Chairmanship of Deputy Commissioner, D.K (Meeting conducted by Sri Channabasappa, ADC, D.K District) to review the progress with respect to implementation Solid Waste Management Rules 2016. ➤ In view of the declaration of Dharmastala No Plastic City by Govt of India the meeting was convened with all the State holder who are consuming/using single use plastic in their day to day activities. ➤ The meeting was attended by Hotel association, Gram Panchayath president, vice president, members, Officials from Zilla panchayath, Grama panchayath Officer, Shop/Commercial establishment, yathiri nivas, maintenance people personal, General publics, Karnataka State Pollution Control Board Officials and selected NGOs of Dharmastala who are engaged in solid waste management at Dharmastala. Each represented have submitted their action plan to be implemented by every State holder including General Public and Travelers for effective implication of ban of single use plastic in the City. ➤ 75 shops, Hotels, Tourist lodge within Gram Panchyat limit of Dharmastala were inspected on 23.11.2023 and upto 400 Kgs of plastics were seized and Rs 15400/- fine was levied on single use plastics ban violators. ➤ Dharamastala Grama Panchayath has conducted SUP Awareness through voice clippings in all the door to door solid waste collection vehicles to make regular announcement and to give awareness among general public on day to day solid waste collection vehicles and Conducting regular raids and imposing fine for the violators. ➤ On 05.02.2024 Dharmasthal Gram Panchayath was declared as SUP Plastic free village by Hon'ble Minister of Forest, Ecology & Environmental Sri Eshwari Khandre and in presence Dr.D.Veerendra Heggade, Member of Parliament in Rajya Sabha. ➤ News Paper article was published in local Udayavani News paper regarding ban of SUPs and announcement of Dharmastala as single use plastic prohibited city on 06.02.2024 as part of awareness among general public ➤ Meeting wrt Preparation of action plan on implementation of ban on single use plastic in Mangalore City and Dharmastala Gram Panchayath Mangalore City held on 25.06.2024 at 3rd floor Conference Hall DC Office, Mangalore.	

	➤ Formation of task force committee for on implementation of ban on single use plastic in Mangalore City, Dharmastala and All ULB's of Dakshina Kannada District. ➤ Attended resource person program on ban on SUP organized by Zilla Panchayat, Dakshina Kannada at Belthangadi for all village Panchayath PDOs and Presidents. ➤ This Office issued direction for local bodies to remove the flex banners.

KSPCB,MANGALURU

National Mission for Clean Ganga
Format for submission of Monthly Progress Report in the NGT Matter OA No. 673 of 2018 (in compliance to NGT order dated 24.09.2020) For the State of Karnataka

Name of the River	SHIMSHA
Polluted river stretch	Yediyur to Halagur bridge
Priority	IV
Status as on	July - 2025

Overall status of the State:

	Particulars	TMC Maddur
I.	Total Population: Urban Population & Rural Population separately	28,902
II.	Estimated Sewage Generation (MLD):	3.5

III. Details of Sewage Treatment Plant:

Particulars	TMC Maddur
Existing no. of STPs and Treatment Capacity (in MLD):	3.5 MLD
Capacity Utilization of existing STPs:	3.5 MLD
MLD of sewage being treated through Alternate technology:	-
Gap in Treatment Capacity in MLD:	Nil
No. of Operational STPs:	01
No. of Complying STPs:	01
No. of Non-complying STPs:	-

Details of each existing STP in the State

Name of the Local Body	Location	Existing STP Capacity	Capacity Being Utilized	Operational Status of STP	Compliance Status of STP
TMC Maddur	Hole Anjanaiah swamy Temple Road, Maddur	3.5 MLD	3.5 MLD	Yes	Complied

Details of under construction STPs in the State:

Name of the Local Body	Location	Capacity of the plant in MLD	Physical Progress in %	Status of I & D or House sewer connections	Completion Timeline
TMC Maddur	Hole Anjanaiah swamy Temple Road, Maddur	Up gradation of existing 3.5 MLD STP to 6.0 MLD with Aeration Technology	Revised DPR is prepared by KUWS&DB, Mandya Division for Rs. 50.15 Crores to divert the sewage discharged into river through storm water drain. Connecting household to UGD by 4000 houses & construction of 2 nos. of wet wells. Upgradation of existing 3.5 MLD STP to 6.0 MLD. The DPR is approved & work has been assigned to KUWS&DB by the Government. The tender is invited by KUWSSB for execution of the work.	Sewage Treatment Plant: UP-gradation of STP work is completed and it is under operation. But other related works like laying network in extension area & household connection etc., are 70 % completed & rest of the work will be completed shortly. Work order for extension of UGD networks in out growth area and extended area gap analysis has done by KUWS&DB. The authorities have operating the STP of capacity 6.0 MLD at Hole Anjaneyaswamy temple Road, Maddur Taluk, Mandya District. The TMC authorities have not obtained CFE-expansion and operation for up gradation of STP of capacity 3.0MLD to 6.0MLD and also not applied for renewal of consent under Water Act, 1974.	14-04-2022

Details of proposed STPs in the State

Name of the Local Body	Location	Capacity of the STP proposed in MLD	Status of Project (at DPR Stage/ Under Tendering/ Work to be Awarded)	Likely Date of Completion
TMC Maddur	Hole Anjanaiah swamy Temple Road, Maddur	Up gradation of existing 3.5 MLD STP to 6.0 MLD.	Sewage Treatment Plant: UP-gradation of STP work is completed and it is under operation. But other related works like laying network in extension area & household connection etc., are 70 % completed & rest of the work will be completed shortly. Work order for extension of UGD networks in out growth area and extended area gap analysis has done by	14-04-2022

			KUWS&DB. The authorities have operating the STP of capacity 6.0 MLD at Hole Anjaneyaswamy temple Road, Maddur Taluk, Mandya District. The TMC authorities have not obtained CFE-expansion and operation for up gradation of STP of capacity 3.0MLD to 6.0MLD and also not applied for renewal of consent under Water Act, 1974.

Status of compliance and operation of the CETPs:

Town	No. of industries	Industrial discharge	Status of ETPs	Status of CETPs (existing, under construction & proposed)
TMC Maddur	-	-	-	-

V. **Solid Waste Management:**

Particulars	TMC Maddur
Total number of Urban Local Bodies and their Population	28,902
Current Municipal Solid Waste Generation	10 TPD
Number, installed capacity and utilization of existing MSW processing facilities in TPD (bifurcated by type of processing eg- Waste to Energy (Tonnage and Power Output), Compost Plants (Windrow, Vermi, decentralized pit composting), bio-methanation, MRF etc	• Composting Existing – 0.0 Gap – 4.1 TPD • Sanitary landfill Existing–Nil Gap – 2.4 TPD • The 70 % of the wet waste is being composted at source level through home composting and 30 % is in a decentralized waste processing plant. • Dry waste is collected by the pourakarmikas and sold to scrap dealers.
Action plan to bridge gap between Installed Capacity and Current Utilization of processing facilities (if Gap > 20%)	<u>Solid Waste Management Details:</u> With respect to Solid Waste Management by Municipalities, under 15th finance (2021-22) grant Tender was given & provided the facility as per SWM Rules at Sy. No. 623 RS & 733 RS, Huthgere Village, Athguru Hobli, Maddur Taluk, Mandya District in an area of 3.0 Acres 32 Guntas in the Sy.No. of 623RS and 3.0 Acres 31 Guntas in the Sy.No.733RS. The total land fill site is about 7.0 Acres 23 Guntas. The authorization was expired on 31.12.2021
No. and capacity of C&D waste processing plants in TPD (existing, proposed and under construction)	Land identification is in progress
Total no. of wards, no. of wards having door to door collection service, no. of wards practicing segregation at source	• Door to door collection 23/23 Wards. • Segregation practice-18 Wards
Details of MSW treatment facilities proposed and under construction (no., capacity, and technology)	DPR for integrated solid waste management is approved for 5.25 Crores, currently civil work is assigned to the contractor and 70 % of the work is completed.
No. and area (in acres) of uncontrolled garbage dumpsites and Sanitary Landfills	3 acres, sanitary landfill is under construction
No. and area (in acres) of legacy waste within 1km buffer of both side of the rivers	-
No. of drains falling into rivers and no. of drains having floating racks/screens installed to prevent solid waste from falling into the rivers	Nos. of drains - 1 Nos. of drains having floating racks / screen – Nil

Status of ULB wise Management of Solid Waste

Name of the ULB	Total MSW generation in TPD	Total MSW being processed in TPD	Existing MSW facilities	Utilization Capacity of the existing MSW facilities	Proposed MSW Facilities & Completion Timeline
TMC Maddur	10	3.0	De centralized pit composting	3.0	DPR for Rs. 5.25 Crores (Civil work- 4 crore & vehicles 1.25 crores) with 12 % GST & work order for processing of entire MSW waste is issued on 23-03-2020 and currently the civil work is assigned to the contractor and about 70% of the work is completed.

a. Bio-medical Waste Management:

Particulars	TMC Maddur
Total Bio-medical generation:	81.7 Kg/day
No. of Hospitals and Health Care Facilities:	Bedded: 03 Non Bedded: 26
Status of Treatment Facility/ CBMWTF:	Disposed to CBMWTF (M/s. Maridi Eco Solutions)

b. Hazardous Waste Management:

Particulars	TMC Maddur
Total Hazardous Waste generation.	-
No. of Industries generating Hazardous waste	-
Treatment Capacity of all TSDFs	-
Avg. Quantity of Hazardous waste reaching the TSDFs and Treated	-
Details of on-going or proposed TSDF	-

c. Plastic Waste Management:

Particulars	TMC Maddur
Total Plastic Waste generation:	3.6 MTPD
Treatment/ Measures adopted for reduction or management of plastic waste:	Awareness programme was carried out to minimize the usage of plastic & regular raid will be carried out.

Particulars	TMC Maddur
VI. Details of Alternate Treatment Technology being adopted by the State/UT	-
VII. Identification of polluting sources including drains contributing to river pollution and action as per NGT order on insitu treatment:	One drain is identified & monitored. The analysis reports of the same is awaited.
VIII. Details of Nodal Officer appointed by Chief Secretary in the State/UT:	-
IX. Details of meetings carried under the Chairmanship Chief of Secretary in the State/UT:	-
X. Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river;	Status of water quality of polluted rivers in Annexure-1.
XI. Ground water regulation:	The ground water resources assessment is carried out on Taluka wise (Administrative Units) The State Govt. has taken up various Recharge/Water Conservation Schemes like for augmentation of ground water resources. In respect of semi critical area action plan will be executed with the District Administration to restore the Ground Water Table.
XII. Good irrigation practices being adopted by the State:	The Dept. of Agriculture has submitted action plan for implementation of following measures. • General Government Practice of Irrigation is maintained in the Maddur Tq. • Farmers are made aware to use water optimally.
XIII. Rain Water Harvesting:	The Department of Revenue and Irrigation have prepared District Disaster Management Plan for the Flood Plains of river Shimsha which is also covered under polluted river stretch. In order to overcome Flood Plains people of nearby villages are warned through early warning arrangement in consultation with revenue department. Further measures required for Flood Plain Management in
XIV. Demarcation of Flood plain and removal of illegal encroachments:	

	the polluted river stretch will be implemented.
XV. Maintaining minimum e-flow of river:	The Cauvery Neeravari Nigam Ltd., is requested to submit the action plan as per MoEF & CC norms during monsoon seasons and same is not yet submitted
XVI. Plantation activities along the rivers:	The Forest Department is requested submit the action for plantation of saplings on the banks of polluted river stretch of Shimsha and the same is not yet submitted
XVII. Development of biodiversity park:	As of now, there is one Bird Sanctuary in Kokkare bellur in Shimsha river stretch of Maddur Taluk. The Forest Department is requested to submit action plan for the proposed bio diversity parks and the same is not yet submitted. The status of the existing and proposed bio diversity parks and its implementations will be executed in coordination with the Forest Department.
XVIII. Reuse of Treated Water:	Treated water is used on land for irrigation.
XIX. Model River being adopted by the State & Action Proposed for achieving the bathing quality standards:	-
XX. Status of Preparation of Action Plan by the 13 Coastal States:	-
XXI. Regulation of Mining Activities in the State/UT:	-
XXII. Action against identified polluters, law violators and officers responsible for failure for vigorous monitoring	-
XXIII. Overall progress of the month: Please provide overall progress achieved in terms of all the above points compared to previous month.	<u>Sewage Treatment Plant:</u> UP-gradation of STP work is completed and it is under operation. But other related works like laying network in extension area & household connection etc., are 70 % completed & rest of the work will be completed shortly. Work order for extension of UGD networks in out growth area and extended area gap analysis has done by KUWS&DB. The authorities have operating the STP of capacity 6.0 MLD at Hole Anjaneyaswamy temple Road, Maddur Taluk, Mandya District. The TMC authorities have not obtained CFE-expansion and operation for up gradation of STP of capacity 3.0MLD to 6.0MLD and also not applied for renewal of consent under Water Act, 1974.

Solid Waste Management Details:

With respect to Solid Waste Management by Municipalities, under 15th finance (2021-22) grant Tender was given & provided the facility as per SWM Rules at Sy. No. 623 RS & 733 RS, Huthgere Village, Athguru Hobli, Maddur Taluk, Mandya District in an area of 3.0 Acres 32 Guntas in the Sy.No. of 623RS and 3.0 Acres 31 Guntas in the Sy.No.733RS. The total land fill site is about 7.0 Acres 23 Guntas. The authorization was expired on 31.12.2021

Annexure-1

XIII. Latest water quality of polluted river stretch for the month of July-2025

Sl. No.	Details of Water Quality Monitoring locations as per NWMP	Year	DO (mg/l)	BOD (mg/l)	Fecal Coliform (MPN/100 ml)	Total coliform (MPN/100 ml)
1	D/S of river Shimsha near Bangalore-Mysore Road Bridge Maddur, Maddur Tq, Mandya District	July -2025	6.8	2.0	110	1100
2	D/s of river shimsha near Halgur Road Bridge, Malavalli Tq, Mandya District	July - 2025	6.9	2.0	93	1200

National Mission for Clean Ganga

Format for submission of Monthly Progress Report in the NGT Matter OA

No. 673 of 2018 (in compliance to NGT order dated 24.09.2020)

For the State of Karnataka

Name of the River : Tunga River
Polluted river stretch : 10Km
Priority : V
Status as on : 31.07.2025

Overall status of the State:

I. Total Population: Urban Population & Rural Population separately:

Shivamogga City Corporation Population is 322650 (As on 2011 census)

II. Estimated Sewage Generation (MLD): 47.79MLD

III. Details of Sewage Treatment Plant:

- Existing no. of STPs and Treatment Capacity (in MLD):

Existing 2 no of capacity STP of 35.58 MLD STP at Thyvarechatnhalli, & 5.13MLD at Purle Village, Shivamogga Tq & Dist is under operation.

- Capacity Utilization of existing STPs:14.52MLD
- MLD of sewage being treated through Alternate technology: --
- Gap in Treatment Capacity in MLD:33.27
- No. of Operational STPs: 2
- No. of Complying STPs:2
- No. of Non-complying STPs: Nil

Details of each existing STP in the State

No.	Location	Existing STP Capacity	Capacity Being Utilized	Operational Status of STP	Compliance Status of STP
1	Sy.no.27/1,28P,32,33, 34,35 & 36, Thyvarechatnhalli,	35.58 MLD	14MLD	Working	Complied

	Shivamogga Tq & Dist				
2	City Corporation, Shivamogga, Sy.No.33/ P1, Purle village, Shivamogga Tq & Dist	5.13MLD	0.52 MLD	Working	Complied

Details of under construction STPs in the State

No.	Location	Capacity of the plant in MLD	Physical Progress in %	Status of I&D or House sewer connections	Completion Timeline
1	Ghandi Park, Shivamogga City, Shivamogga	0.05MLD	100%	-	Work Completed. But not commissioned

Details of proposed STPs in the State

No.	Location	Capacity of the STP proposed in MLD	Status of Project (at DPR Stage/ Under Tendering/ Work to be Awarded)	Likely Date of Completion
-	-	-	-	-

IV. Details of Industrial Pollution:

- No. of industries in the State:

There are no large industries located on the bank of the Tunga River.

- No. of water polluting industries in the State: -
- Quantity of effluent generated from the industries in MLD: -
- Quantity of Hazardous Sludge generated from the Industries in TPD: -
- Number of industrial units having ETPs: -
- Number of industrial units connected to CETP: Nil
- Number and total capacity of ETPs (details of existing/ under construction / proposed)
: -
- Compliance status of the ETPs: -

- Number and total capacity of CETPs (details of existing/ under construction / proposed) :Not Applicable (Shivamogga Dist. is not having any CETP).
- Status of compliance and operation of the CETPs

Town	No. of industries	Industrial discharge	Status of ETPs	Status of CETPs (existing, under construction & proposed)
	Nil			

V. Solid Waste Management:

- Total number of Urban Local Bodies and their Population:
1 - City Corporation, Shivamogga. Population is 322650
- Current Municipal Solid Waste Generation is about **170TPD**.
- Number, installed capacity and utilization of existing MSW processing facilities in TPD (bifurcated by type of processing eg- Waste to Energy (Tonnage and Power Output), Compost Plants (Windrow, Vermi, decentralized pit composting), bimethanation, MRF etc : City Corporation, Shivamogga is having MSW site at Sy No.198, 202 to 206, 208 to 210, Anupinakatte Village, Shivamogga. Installed capacity is 75TPD (Considering 8 hr Shift) and they operate the unit in two shifts (6.00AM to 10.00PM) to process the MSW.
- Action plan to bridge gap between Installed Capacity and Current Utilization of processing facilities (if Gap > 20%) : --
- No. and capacity of C&D waste processing plants in TPD (existing, proposed and under construction) : NIL
- Total no. of wards, no. of wards having door to door collection service, no. of wards practicing segregation at source : There are 35 wards in Shivamogga Corporation. All 35 wards are covered under Door to Door Collection. All 35 Wards are doing source segregation.

- Details of MSW treatment facilities proposed and under construction (no., capacity, and technology)-**Nil**
- No. and area (in acres) of uncontrolled garbage dumpsites and Sanitary Landfills.: --
- No. and area (in acres) of legacy waste within 1km buffer of both side of the rivers : --
- No. of drains falling into rivers and no. of drains having floating racks/screens installed to prevent solid waste from falling into the rivers: 7 drains.

Smart City Shivamogga has taken up 7 works (Drains) to divert during summer season. (I & D Work).

Additionally, KUWS&DB, Shivamogga, has taken on I and D (Interception & Diversion) works, with 75% of the construction finished and work scheduled to be finished in December 2023.

Status of ULB wise Management of Solid Waste

ULB	Total MSW generation in TPD	Total MSW being processed in TPD	Existing MSW facilities	Utilization Capacity of the existing MSW facilities	Proposed MSW Facilities & Completion Timeline
1	170TPD	150 TPD (2 Shifts)	windrow platform, composting ,leachate treatment is provided.	75TPD(Considering 8 hr Shift) and they operate the unit in two shifts to process the MSW	Nil

VI. Bio-medical Waste Management:

- Total Bio-medical generation : 1174 Kg/day
- No. of Hospitals and Health Care Facilities: Total No of Hospitals and Health Care Facilities is 431 including 90 No bedded HCF,336 No non bedded HCF and 5 Veterinary Hospital.
- Status of Treatment Facility/ CBMWTF : The Shivamogga Dist is having one CBMWTF i.e.M/s.Shushrutha Biomedical Waste Management Society®, Plot.No.31/C, Machenahalli Indl Area, Bhadravathi Tq,Shivamogga Dist. The unit has obtained Consent and Authorization from the Board for the

period up to 30.06.2025.

VII. Hazardous Waste Management:

- No. of Industries generating Hazardous waste : 38
- Treatment Capacity of all TSDFs:
Not Applicable (Shivamogga Dist. is not having TSDF)
- Avg. Quantity of Hazardous waste reaching the TSDFs and Treated: Not Applicable
- Details of on-going or proposed TSDF: Not Applicable

VIII. Plastic Waste Management:

- Total Plastic Waste generation: 4318 TPA
- Treatment/ Measures adopted for reduction or management of plastic waste:

The City Corporation, Shivamogga has prepared By laws for Plastic Waste Management Rule. Plastic raids on Commercial activities are conducted from time to time from City Corporation Shivamogga and KSPCB.

IX. Details of Alternate Treatment Technology being adopted by the State/UT --

X. Identification of polluting sources including drains contributing to river pollution and

action as per NGT order on insitu treatment:--This Office has indentified 7 points where drains contributing the river pollution and legal sample was collected on 26.06.2023 the analysis reports are herewith attached for kind perusal and the locations are as follows:

1. Harakere Left Bank of Tunga river Shivamogga
2. Uragadur (Right Bank of Tunga River), Shivamogga :
3. Near Purle , Right Bank of Tunga River), Shivamogga
4. Holebenavalli (Right bank) Shivamogga,
5. Goravinakatte (Left bank)Kudli Suguru Shivamogga,
6. SPM Road, New Mandli, Malavagoppa south Shivamogga Dist,

7. Thevarchatnahalli Shivamogga

XI. Details of Nodal Officer appointed by Chief Secretary in the State/UT:--

XII. Details of meetings carried under the Chairmanship Chief of Secretary in the State/UT:--

XIII. Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river;

This Office is collecting the River Water Samples every month at 2 Locations.

July- 2025 month analysis report enclosed as Annexure-1.

XIV. Ground water regulation:

District Ground Water Office has reported that Shivamogga Dist lies under safe zone (There are no over exploited Taluk)

XV. Good irrigation practices being adopted by the State:

Adoption of micro irrigation practices such as drip/sprinkler.

XVI. Rain Water Harvesting:

Shivamogga Urban Development Authority (SUDA) is insisting residential Buildings/Commercial Buildings to adopt Rain Water Harvesting in its approval.

XVII. Demarcation of Floodplain and removal of illegal encroachments:

Flood plain zone encroachment details are sought from the Revenue Department.

XVIII. Maintaining minimum e-flow of river:

Karnataka Water Resources Department is the concerned Department and it is maintaining the flow as per the Norms.

XIX. Plantation activities along the rivers:

The Deputy Commissioner has informed the Forest Department Officers to take suitable action for plantation in flood plain zone.

XX. Development of biodiversity park:

The Deputy Commissioner instructed the Irrigation Department Officials to verify the encroachment if any on the river banks and informed to take suitable action on this issue along with the concerned Department

XXI. Reuse of Treated Water: --

XXII. Model River being adopted by the State & Action Proposed for achieving the bathing quality standards: --

XXIII. Status of Preparation of Action Plan by the 13 Coastal States: Not Applicable

XXIV. Regulation of Mining Activities in the State/UT:

Mines & Geology Dept is monitoring Sand Mining activity

XXV. Action against identified polluters, law violators and officers responsible for failure for vigorous monitoring:---

XXVI. Overall progress of the month:---This Office issued Show cause notice to City Corporation ,Shivamogga with respect to the non-compliances and discharging of untreated sewage into the Tunga river and letter also furnished to Board Office for calling CC, Shivamogga for personal hearing at Board Office.

All 3 STPs in City Corporation ,Shivamogga were inspected in the month of June and with respect to the non-compliances recommended to Board to call all ULB authorities for personal hearing at Board Office. Conducted awareness programmes and Tunga river bank cleaning work along with CC, Shivamogga on December -2023 month.

The Meeting was conducted with concerned department with the chairmanship of the DC, Shivamogga on dated 15.11.2023.

The Meeting was conducted with concerned department with the chairmanship of the DC, Shivamogga on dated 11.07.2024.

CMC Harihara – 8.84 MLD

TMC Honnali – 2.4 MLD

Total – 62.84 MLD

III. Details of Sewage Treatment Plant:

- Existing no. of STPs and Treatment Capacity (in MLD):

Davangere: 4 No's of STPs of capacities 14.8 MLD, 20 MLD, 20 MLD & 5 MLD.

Harihara : 18 MLD.

Honnali : 3.3 MLD.

- Capacity Utilization of existing STPs: **62.84 MLD.**
- MLD of sewage being treated through Alternate technology: **Nil**
- Gap in Treatment Capacity in MLD: **Nil**
- No. of Operational STPs: **4 No's**

(Out of 6 STPs only 2 STP has valid CFO)

- No. of Complying STPs: 3 No's
- No. of Non-complying STPs: 2 No's

Details of each existing STP in the State

No.	Location	Existing STP Capacity (MLD)	Capacity Being Utilized (MLD)	Operational Status of STP	Compliance Status of STP
1	CC, Davangere (Kundawada Village)	14.8 (WSP)	9	Partially Operating	Not complied
2	CC, Davangere (shivanagara)	20 (SBR)	16	Operating	Complied
3	CC, Davangere (shivanagara)	20 (SBR)	16	Operating	Complied
4	CC, Davangere (Avaragere)	5 (SBR)	3	Operating	Complied
5	CMC, Harihara	18 (FAL)	8.84	Started operating	Not Complied
6	TMC, Honnali	3.3 (NEBR)	1.8	Under Modification (obtained CFExp for change in Technology from WSP to NEBR)	Not Complied

Details of under construction STPs in the State

No.	Location	Capacity of the plant in MLD	Physical Progress in %	Status of I&D or House sewer connections	Completion Timeline
1	TMC, Honnali	3.3 MLD	90 %	Authenticated data Not provided	-

Details of proposed STPs in the State

No.	Location	Capacity of the STP proposed in MLD	Status of Project (at DPR Stage/ Under Tendering/ Work to be Awarded)	Likely Date of Completion
Nil				

IV. Details of Industrial Pollution: (RO, Davangere Revenue District)

- No. of industries in the State: **368 (R+O+G pertaining to Davangere Revenue Dist).**
- No. of water polluting industries in the State: **2. (2 major industries located on River bank, viz; M/s. Harihara Poly fibers and M/s. Grasiline Division of Grasim Industries. These two industries are located in Revenue limits of Haveri District)**
- Quantity of effluent generated from the industries in MLD: **Consented effluent generation is 49.840 MLD and average quantity effluent generated is 32.5 MLD. (This information is pertaining to M/s. Harihara Poly fibers and M/s. Grasiline Division of Grasim Industries. These two industries are located in Revenue limits of Haveri District)**
- Quantity of Hazardous Sludge generated from the Industries in TPD: **0.0 TPD.**
- Number of industrial units having ETPs: **2. (This information is pertaining to M/s. Harihara Poly fibers and M/s. Grasiline Division of Grasim Industries. These two industries are located in Revenue limits of Haveri District)**
- Number of industrial units connected to CETP: **0**
- Number and total capacity of ETPs (details of existing/ under construction / proposed)
 - **2 ETPs of capacities – 20 MLD of M/s. Grasiline Division (GRD) and 40 MLD of M/s. Harihara Poly fibers (HPF). (These two industries are located in Revenue limits of Haveri District)**
- Compliance status of the ETPs: **Complied with effluent standards.**
- Number and total capacity of CETPs (details of existing/ under construction / proposed) - **NIL**
- Status of compliance and operation of the CETPs - **Nil**

Town	No. of industries	Industrial discharge	Status of ETPs	Status of CETPs (existing, under construction & proposed)
Kumarapattnum, Ranebennur Tq, Haveri Dist.	2 (M/s. Harihara Poly fibers and M/s. Grasiline Division of Grasim Industries.)	32.5 MLD	Operating and Complied with the Consent conditions	NIL

V. Solid Waste Management:

- Total number of Urban Local Bodies and their Population: **3 No's (pertaining to River stretch)**

Davangere CC – **4,34,971**

Harihar CMC – **77,447**

Honnali TMC – **17,928**

- Current Municipal Solid Waste Generation –

Davangere CC – 170 TPD

Harihar CMC - 30 TPD

Honnalli TMC - 8 TPD

- Number, installed capacity and utilization of existing MSW processing facilities in TPD (bifurcated by type of processing eg- Waste to Energy (Tonnage and Power Output), Compost Plants (Windrow, Vermi, decentralized pit composting), bio methanation, MRF etc..

Sl. No	ULB	Installed capacity	Type of processing
1	CC Davangere	200 TPD	Segregation using trammel/vibratory screen machineries in to RDF, inhort and Bio soil is started and also segregation of legacy waste is started.
2	CMC Harihara	35 TPD	
3	TMC Honnali	8 TPD	Segregation of dry waste and wet waste is started.

- Action plan to bridge gap between installed Capacity and Current Utilization of processing facilities (if Gap > 20%): **Nil**
- No. and capacity of C&D waste processing plants in TPD (existing, proposed and under construction) – **Nil**
- Total no. of wards, no. of wards having door to door collection service, no. of wards practicing segregation at source -

ULBs	No of wards	No of wards having door to door collection service	no. of wards practicing segregation at source
Davangere CC	45	45	45
Harihar CMC	31	31	26
Honnali TMC	23	23	22

Note: As per the details submitted by DUDC Davangere.

- Details of MSW treatment facilities proposed and under construction (no., capacity, and technology) – **Nil**.
- Number and area (in acres) of uncontrolled garbage dumpsites and Sanitary Landfills. - **Not reported.**
- Number and area (in acres) of legacy waste within 1km buffer of both side of the rivers -- **Nil**
- Number of drains falling into rivers and no. of drains having floating racks/screens installed to prevent solid waste from falling into the rivers

Sl. No	Number of drains falling into rivers	Number of drains having floating racks/screens
1	4	0

Status of ULB wise Management of Solid Waste

ULB	Total MSW generation in TPD	Total MSW being processed in TPD	Existing MSW facilities	Utilization Capacity of the existing MSW facilities	Proposed MSW Facilities & Completion Timeline
Davangere CC	190 TPD	190 TPD	Segregation using trammel/vibratory screen machineries in to RDF, inhort and Bio soil is started and also segregation of legacy waste is started.	190 TPD	-
Harihar CMC	30 TPD	30 TPD		30 TPD	-
Honnali TMC	8.5 TPD	8.5 TPD	Composting	8.5 TPD	-

Note: As per the details submitted by DUDC Davangere.

VI. Bio-medical Waste Management:

- Total Bio-medical waste generation: **1.77 TPD (As per the 2023-24 Annual report submitted by CBMWTF In Davangere district)**
- Number of Hospitals and Health Care Facilities: **27 (Bedded Hospitals > 30 beds)**
- Status of Treatment Facility/ CBMWTF: The Biomedical wastes generated from the Davangere District is being collected, treated and disposed by **M/s. Sushanth Environmental Technologies., Amaravathi Village, Harihara Taluk, Davangere.**

VII. Hazardous Waste Management:

- Total Hazardous Waste generation: **(2 major industries located on River bank, viz; M/s. Harihara Poly fibers and M/s. Grasiline Division of Grasim Industries)**
ETP sludge – **Nil**
Cotton waste & Used oil filters– **2.0 MT/A.**
Used oil – **8.9 KL/Annum.**
- Number of Industries generating Hazardous waste: **2.**
- Treatment Capacity of all TSDFs: **Nil (There is no TSDF in Davangere limits)**
- Avg. Quantity of Hazardous waste reaching the TSDFs and Treated: **Nil**
- Details of on-going or proposed TSDF: **NIL**

VIII. Plastic Waste Management:

There are no plastic waste generating industries in the said Polluted River stretch.

- Total Plastic Waste generation: **Nil**

- Treatment/ Measures adopted for reduction or management of plastic waste: Nil

IX. Details of Alternate Treatment Technology being adopted by the State/UT –

Nil

X. Identification of polluting sources including drains contributing to river pollution and action as per NGT order on in situ treatment: **following are the points where drains contributing towards river;**

Sl. No	Location	Type of sewage
1	Ukkadagathri village (Left bank), Harihara Tq, Davangere	Village sewage
2	Harihara Town (Right bank)	City sewage
3	Chikkabidari Village & Sarathi halla (Right bank), Harihara Tq, Davangere.	Village sewage
4	Didagur village (Left bank) & Honnali town, Davangere	Village sewage and Honnali city sewage

XI. Details of Nodal Officer appointed by Chief Secretary in the State/UT: --

XII. Details of meetings carried under the Chairmanship Chief of Secretary in the State/UT: **No meeting conducted in July Month.**

XIII. Latest water quality of polluted river, its tributaries, drains with flow details and ground water quality in the catchment of polluted river; **July** Month river water analysis report enclosed as **Annexure 1.**

XIV. Ground water regulation: --

XV. Good irrigation practices being adopted by the State: --

XVI. Rain Water Harvesting: --

XVII. Demarcation of Floodplain and removal of illegal encroachments: --

XVIII. Maintaining minimum e-flow of river: --

XIX. Plantation activities along the rivers: ---

XX. Development of biodiversity park: ---

XXI. Reuse of Treated Water:

District level special Environment surveillance Task force committee chairman has directed M/s. Grasim industries (HPF & GRD) authorities to utilize the

treated effluent maximum for various purpose in unit premises and agricultural purpose during the meeting held on 30.11.2022. I/A have informed that, they have established full-fledged ETP comprising of primary treatment, secondary treatment based on Extended Aeration Activated Sludge Process and Tertiary treatment for effluent color removal. The color of the effluent was purely due to lignin in the colloidal suspension form, which is nontoxic to the eco system. However, lignin in small quantity in the effluent imparts a brownish tinge to the effluent thereby creating aesthetic impact on river water.

XXII. Model River being adopted by the State & Action Proposed for achieving the bathing quality standards: --

XXIII. Status of Preparation of Action Plan by the 13 Coastal States: --

XXIV. Regulation of Mining Activities in the State/UT: --

XXV. Action against identified polluters, law violators and officers responsible for failure for vigorous monitoring ---

XXVI. Overall progress of the month:

Please provide overall progress achieved in terms of all the above points compared to previous month -

Monitoring of river water was carried out on 15.07.2025 and 22.07.2025, analysis report is enclosed.

Sd/-
Environmental Officer
KSPCB, Davangere.
